## **Post 25 Education – Policy**

The OUC does not normally make grants to individuals for educational purposes. Exceptions may be made and an application considered if:

- A grant has previously been made from the OEF for fewer than five years and a grant from OUC would enable an applicant over 25 to complete a course previously started. Any grant awarded would be in line with the OEF educational policy.
- The applicant suffers from a significant disability and a relevant professional believes that the course would be beneficial to them. Written support from a professional would be required.
- Where the applicant is suffering from very serious financial hardship and a relevant professional believes that a particular course will make a significant difference.
