

Okehampton United Charities

Funding for the Community

Pre-school Education – Policy

The charity does not normally make grants to fund childcare or pre-school education.

However, it may make a grant if:

- The application is made on behalf of the family by a relevant professional person and
- The trustees are satisfied that there is particular benefit to the child in this case and
- The trustees are satisfied on the advice of the relevant professional person that the family cannot find the funds itself and that funding could not be found from any other source.
