Funding for the Community

Pre-school Education – Policy

OUC does not normally make grants to fund childcare or pre-school education.

However, it may consider awarding a grant if:

- The application is made on behalf of the family by a relevant professional person and
- The Trustees are satisfied that there is particular benefit to the child in this case and
- The Trustees are satisfied on the advice of the relevant professional that the family cannot find the funds itself and that funding could not be provided from any other source.
