

The Trustees of Okehampton United Charities are delighted to announce they have been successful in securing over 33 acres of land in Okehampton. This land includes the beautiful Tramlines Bridleway and three other parcels of land. Some of the land will be used to enhance life in Okehampton by providing green space and routes from Okehampton to Dartmoor. The trustees will look to work with other local organisations to ensure the land is preserved for the benefit of residents, to develop the environmental features and enhance educational opportunities.
